Hi,

According to the Environment Agency, over two million people in England live and work in properties at risk of flooding from rivers or the sea, whilst more face flood threats from groundwater, surface water, sewers, and reservoirs.

At GoCompare, we have put together a guide to preparing for a flood and protecting your property - <https://www.gocompare.com/household-tips/limiting-flood-risk-and-damage/>

In extreme conditions you won't be able to stop flood water, and you should always put personal safety above attempts to protect property and possessions. Despite this, there are steps that you can take to keep water out, to buy yourself time to preserve property and possessions, and to limit the damage that flood water does.

We think this information would be useful for your readers and wonder if you would consider linking to our guide at your page <http://www.burfordparishcouncil.co.uk/community/burford-parish-council-13213/useful-links/>

Thank you for your support, we're extremely grateful.

Kind regards,

Catherine Bailey  
Publisher Partner Manager

# GoCompare

A FUTURE COMPANY

**Connectors. Creators. Experience Makers.**

GoCompare, Imperial House, Imperial Way, Newport, UK, NP10 8UH
